Notes:

Updates on AE supplemental funding & WiCII

1. State Act Early Teams have opportunity for supplemental funding \$75K per state for one year; focuses on identification and referral for autism and other DD – Gail will likely be reaching out to WISMHI as they put the application together in the next month; will also need a letter of support from DHS
 1. Needs assessment to identify gaps and opportunities to improve
 2. Develop and implement plan
 3. Inputs, process, and outcomes evaluation
2. Leah suggested that we could partner with home visiting on this grant to conduct needs assessment and improve screening
3. WiCII may work with EQT by design to find ways to better connect with medically underserved populations (particularly people of color); Gail is going to provide them information on concrete activities they could help us with that they can build a proposal around; some ideas she has include: 1) Family outreach and education; 2) Determining the needs of families of children with or at risk of ASD/DD
 1. Leah liked the Equity Action Lab model used with Rose in Grant County in the last grant round – may be a good model to replicate in other medically underserved populations

Provider Ed updates and discussion

1. It is okay for Geeta to listen in on an ECHO Autism session. Nicole will send Geeta and Naomi the schedule and check to see if Naomi and Gail can sit in as well
2. WiCII is planning on doing Developmental Rounds for PCPs with Danielle Scholze to provide updates on screening and guidelines
 1. Planning on making these available more broadly than just WiCII providers

2. Danielle was concerned that PCPs would confuse the rounds with ECHO Autism if it comes from her or Waisman
3. Wondering if it makes sense to partner with WiSMHI for promotion
 - i. Medical minute goes out to providers who have taken WiSMHI trainings
 - ii. WIAAP, CPCP and WCHQ may be willing to promote as well
4. Could be an educational module that sits on the CPCP website if we record it
5. ASHEW – WIAAP MOC-4 training for 12 months to conduct a QI project related to mental health
