**Notes:**

- Updates series:
  - Updates first session is on June 23<sup>rd</sup>, flyer just about ready
  - Nicole will add email, credentials, organization to zoom registration
  - Will promote with WAFP, WIAAP, CPCP, WiSMHI, AE team, WiCII participating clinics
  - Leah followed up with Shawn – she didn't think it mattered for the audience targeted for summit
  - Naomi had a mom call her trying to get her child screened – her child is 18 months and not talking yet. PCP just told her she needed to connect with the state to get screening – may make sense to focus on what to do when a parent or PCP has a developmental concern about a child (screening, referrals)
    - Personal stories are a powerful way to teach – a story like this is a good example
  - We will post recordings of sessions on WiCII website
